Daily Meeting Summary - March 29th

Author : Borna Jamali

Team Updates:

- Borna will start working on RPI pico today.
- Arttu is working on the model for Arduino but needs to address some memory issues.
- Leevi hasn't started working on the project yet but will begin soon.
- Tuula worked on task 58 on Monday with Nella and is almost finished. However, she has trouble connecting the Arduino to the USB port.
- Nella is trying to send an image to web app from Arduino but has encountered issues with Docker and device recognition.
- Matias will start working today on RPI but is uncertain about attending Monday's sprint planning.

Discussion:

- The team discussed a one-week sprint proposal presented by Hiroshi.
